

ENVIRONMENTAL POLICY

WFM Electrical Services are committed to a policy of providing high-quality products and services in a manner which will protect and improve the environment for all our activities.

WFM Electrical Services will work closely with our clients, contractors, the community, industry and external agencies to establish the controls by which we can make a positive contribution towards innovative and cost-effective and sustainable environmental outcomes.

Responsible management of environmental issues is an essential part of achieving our business objectives.

Accordingly, we are committed to conducting our activities in ways which will:

- Improve our awareness and management of environmental risks and avoid, reduce and prevent pollution.
- Comply with environmental legislation and other requirements.
- Promote waste minimisation, sustainable resource use and energy management, and support the transition to more energy-efficient and lower-emission ways of working.

WFM Electrical Services, through our management and employees, will ensure our operations comply with this policy by developing, implementing and maintaining a system based on ISO 14001:2015 (AS/NZS ISO 14001:2016).

The Environmental Management System will:

- Set a clear policy direction for environmental issues and objectives.
- Contain measurable objectives and targets;
- Establish systems for auditing, monitoring and reporting performance.
- Identify and promptly resolve any non-conformances and document any necessary procedural changes.

WFM Electrical Services is committed to the continual improvement of this Environmental Management System to enhance our environmental performance over time.
