

QUALITY POLICY

WFM Electrical Services are dedicated to the quality policy that will ensure that our products and services fully always meet the requirements of our customers.

The goal of WFM Electrical Services is to always achieve a high level of customer satisfaction. Commitment to the implementation of supporting managerial and business operational systems is essential to realising that goal.

WFM Electrical Services believe in the concept of client and supplier working together in pursuing this policy and in continually striving for improvements in quality.

The quality policy is based on 3 fundamental principles:

- Ensuring that we fully identify and conform to the needs of our customers, and to all applicable statutory, regulatory and contractual requirements.
- Looking at our internal processes, identifying the potential for errors and taking the necessary action to eliminate them.
- Everyone understands how to do their job and do it right the first time.

To ensure that WFM Electrical Services policy is successfully implemented, workers will be responsible for identifying customer requirements and ensuring that the correct procedures are followed to meet those requirements. Measurable objectives and targets will be established to ensure that the requirements of this policy and continual improvement are maintained.

The quality policy principles and objectives will be communicated and available to workers and external interested parties. Within this Policy we are committed to operating our company under the disciplines and control of a system conforming to the International Standard ISO 9001:2015 (AS/NZS ISO 9001:2016), planned and developed jointly with our other management functions.

WFM Electrical Services are committed to operating continuously to this standard and we will maintain the necessary quality approvals consistent with our customer requirements and improve our services to ensure tasks are completed in the most cost effective and timely manner for the benefit of all our customers.

WFM Electrical Services shall ensure that all our personnel understand and fully implement our policies and objectives and are able to perform their duties effectively through an ongoing training and development program.
